

Indicative Core Curriculum and Delivery Strategy

For this capacity building programme, a core curriculum is proposed comprising modules which can be combined for a “fit for purpose” competency development per target group, as follows:

Module	Topics	Target trainees	Objective(s)	Delivery Mode
1. Basic CC Awareness Raising Module	Overview of Concepts, principles and legislative framework for climate change ^[2]	All	To develop basic knowledge & appreciation of CC related concepts, state of the science ^[3] & policy responses ^[4]	Orientation Seminar
2. Climate Change Policy Linkages Module	Linking climate change to Disaster Risk Management & sustainable development	All	Provide global & national contexts of the inter-linkages of Disaster Risk Reduction, Climate Change Adaptation & sustainable development goals as reflected in current global agreements & national & local instruments ^[5]	Seminar
3. Green-house Gas (GHG) Inventory Module	National Greenhouse Gas inventory & the Global GHG Situation	CC Focal Persons in DENR Central, Bureaus & Attached Offices; Regional & Local Offices	Develop knowledge & analytical skills on the source of the climate change problem	Seminar-Workshop
4. GHG Mitigation Module	GHG Mitigation Strategies	CC Focal Persons in DENR Central, Bureaus & Attached Offices; Regional & Local Offices	Develop knowledge and planning skills on GHG avoidance & reduction in the ENR sector	Seminar-Workshop

5. Climate Risk Assessment Module	Hazards Modelling and Risk Assessment ⁶¹	CC Focal Persons in DENR Central, Bureaus & Attached Offices; Regional & LGU Offices	Develop knowledge & analytical skills on the potential impacts of climate change in the ENR sector	Seminar-Workshop
6. Climate Risk Management Module	Applying the Climate Risk Management Framework ⁶²	CC Focals in DENR Central, Bureaus & Attached Offices; Regional & Local Offices	Develop knowledge & skills on the formulation of adaptation, disaster risk reduction & resilience building measures for the ENR sector	Seminar Workshop
7. CC Negotiations Module	UNFCCC/ Kyoto Protocol/ Paris Agreement negotiation issues	Central, Bureaus & Attached Offices; Regional & Local Offices	Develop knowledge and skills on the global climate change negotiation issues & implications to the domestic situation	Lectures/ Workshop
8. Climate Finance	Basic concepts on climate finance; global & local sources ⁶³ of Climate Finance	Central, Bureaus & Attached Offices; Regional & Local Offices	Develop knowledge & skills on accessing climate finance	Lectures/ Workshop
9. Practicum	On the job integrated application of concepts in the previous modules	Central, Bureaus & Attached Offices; Regional & Local Offices	Develop competency on mainstreaming CC concepts into sectoral (ENR)/ regional /local planning/programming/regulatory instruments	Mini thesis

Training packages can be customized for the target trainees within the DENR- High level Officials (Undersecretaries & Assistant Secretaries), Middle Managers (Bureaus, Regional and Attached Agencies' Directors and Assistant Directors), Senior Technical Staff (Division and Section Chiefs), Planning Officers, PENROs, CENROS. This training

programme can be delivered up to a maximum of three years, depending on the target groups.
